To the receiving professional or distinguished recipient,

I am writing to provide my personal and professional recommendation Kelton Lee for consideration as a front-end web developer. Kelton has been an exceptional addition to our team during his internship at MasterControl, and I am confident that he will continue to excel in this industry and profession.

During Kelton's time at MasterControl, he consistently demonstrated a strong skill set in front-end technologies including HTML, CSS, and JavaScript, and delivered high-quality work. Kelton is willing to put in the effort and work on difficult tasks to ensure they are done right. During our time together Kelton was able to learn and work with the Sitefinity content management system in multiple environments to complete a variety of projects related to our marketing campaign efforts and expansion of the company design system. His work is published in our production environment and is used by thousands of users each month.

One of Kelton's most impressive qualities is his ability to listen and learn quickly. He was always attentive during team meetings, asking insightful questions and absorbing new concepts rapidly. Kelton is a proactive learner who takes the initiative to expand his knowledge base and regularly asks questions for clarity and understanding.

Furthermore, Kelton is an excellent team player who collaborates effectively with colleagues. He is always open to feedback and adapts well to changing project requirements with a positive demeanor. Overall, I have been thoroughly impressed with Kelton's performance and believe that He has a bright future in front-end web development.

I wholeheartedly recommend Kelton for consideration and am confident that He will make a significant and positive impact on any team fortunate enough to have him as a member. If you have any further questions or require additional information, please do not hesitate to contact me personally at zak@zporter.com or (435) 232-0599.

Best regards,

Zachary Porter
